

SEQUOYAH SOFTWARE

Cashiering

The features below are just a brief sample of those provided by the Cashiering system. This system provides for the collection of payments for utility services or sale/collection of any other items. The user may define any number of products and services with pricing to be posted and collected at the point of sale.

- Unlimited Item/Charge Codes with Pricing
- Prints Receipts
- Endorses Checks
- Validates Billing Stubs
- Computer Assisted Balancing Procedures
- Audit Trails and Reports
- Unique Identifications of Clerks
- Creates All General Ledger Entries
- Updates account as Payment is Made
