TRAINING ONLINE

We are now offering **Training Online – Monthly!**
We use TeamViewer as the online platform.

The SSCI website front page near the bottom gives the dates and times of the training. We do an hour for training on utility billing and an hour of training on the accounting modules.

Liberty will be doing these trainings and will go over specifics on the software and answer questions that the users may have.

We have been offering these trainings over the last few months and we have had great response.

Please look on the website for training dates and times. You can just click on the link to join!!!!

See you on the next on-line training session!!!!

SSCI SOFTWARE- WEBSITE

Many of you our Customers don't know that we at Sequoyah software put information on our website that may be of benefit to you and your staff.

We include such information as: **Online training dates, Annual User Group information & dates, videos on how to tips, Partners & Integration, new customers, information and when we will be attending tradeshows.**

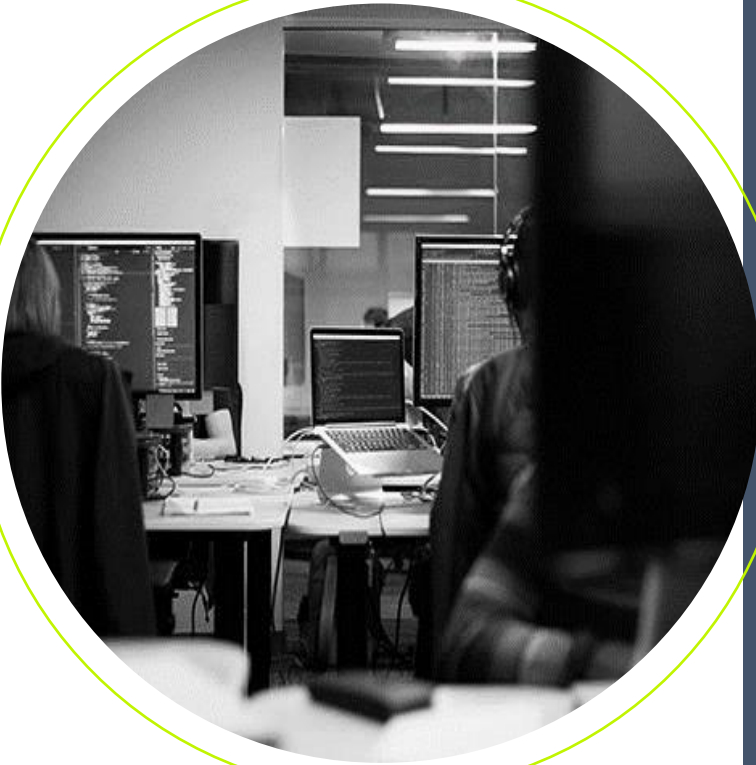

We have marketing information on products and services under resource that you can download.

We feel that the website is a way to help better communicate information to you our customer.

We will be adding more information in the next few months on software specific uses and software upgrades coming!!

Please visit: WWW.SSCiSoftware.com or WWW.SequoyahSoftware.com

CYBER SECURITY IS A MUST

Cyber Security is now a must have. We see that hundreds to thousands of occurrences of ransomware attacks and viruses threaten our daily work.

If you have ever had ransomware or a virus that knocks out your service you understand how these cyberattacks have hurt productivity and cost businesses thousands of hours of time and money.

SSCi has partnered with Elynx to provide your utility or municipality with 3 main options to help your Company with:

- 1) Remote Secure Log-in
- 2) Patch Management
- 3) End Point Protection

See www.jumptolynx.com Call me at 314-210-8922 for a demo and quote !!! We have many customers that have already signed up for service.

“Simplicity Equals
Greatness “

SOFTWARE UPDATES

Sequoyah Announces new software updates – Out Soon!!!

Mobile Work Orders !!!!

EPA lead and Copper tracking and mapping !!!!

Backflow Fields !!!!!

The SSCi work order system is now integrated with diamond maps it provides updates to Diamond Maps.

SSCi has added a whole new section to track the EPA lead and copper mandate so your company can track premise and off premise lead and copper pipes per customer. The fields have been added so that you can track all the data needed by the EPA.

The system also integrates with Diamond maps to show that specific lead and copper layer on the map.

We also have created reports so that you can send the information to the EPA or state.

Backflow fields have been added to the Sequoyah Billing system and it allows you to create reports on who has backflow devices – send letters and store certified inspection and repair information.

Let us show you the new updates to your company !!!!!

We want to thank you our customers for allowing SSCi to serve you. We are always looking to add new product and services to make your jobs easier – We appreciate any feedback we can get from you to help use work better for you.

We also want to thank our partners for working with us to help our customers give better service !!!!!!!
